

HUGHES' ATTITUDE DISAPPOINTS BERLIN

Newspapers Find in Note No Basis for Expecting U. S. Aid to Germany

SEE INFLUENCE OF VIVIANI

By the Associated Press Berlin, April 5.—German newspapers which comment today on the communication from Secretary of State Hughes regarding the reparations question are almost a unit in expressing disappointment. They find in it no basis for the optimism which had been professed in some quarters that the United States would support Germany financially or give her moral backing to secure a revision of the indemnity demands and the carrying out of the restitution provisions of the peace treaty.

The Pan-German organs take occasion to criticize the Washington administration for its insistence upon the false assertion that Germany brought on the war and must accept the responsibility for it. The only light seen by the press as a whole is the phrase declaring that Germany is "morally bound to make reparation, so far as may be possible." This leads the conservative Koenig Zeitung to entertain the hope that further negotiations will establish Germany's contention that she has been taxed beyond her ability to pay. The newspaper is pessimistic, however, over the prospect of finding unbiased experts to fix the limit of Germany's paying ability.

This action, says the resolution, is taken in the belief that the forty-four-hour week is to become effective in the printing industry on May 1, 1921, and that the international joint conference committee has not been able to make an agreement as to the wages that should be paid for the forty-four-hour week.
